

[Download](#)

Hi everyone, let's see how to check the cross-industry site in the Actix analyzer Actix is already loading a log file. I. D:\\Workload\\Actix\\logs\\Actix\\jobs.log. Then open the file. For example, for the current file you have open, right-click in File Explorer and select Open with... . Click Browse and select Actix Jobs. The file will then be opened and displayed in Actix. 4. Start another performance monitor. 5. Open the file. For example, for the current file you have open, right-click in File Explorer and select Open With... .
