2b81359f80Q: ActiveMQ and amqp send queues won't receive messages I have a message broker using ActiveMQ and trying to send a message to a queue. All the other functionality in the application works fine with the exception of the send queue receiving the message. I'm pretty sure the issue is with my queue setup as it works with sqs and the code was working at another apartment and then moved to the current but it still won't work. I created the topics in apache cxf but unsure if that is needed. The client is a ruby client and would send off a 500 message to the topic to request data. Here is the code for creating the queue: 3da54e8ca3
