FreeNote Full Version

FreeNote is a note application which allows you to store all notes and texts which are in need of one in one convenient place on your desktop. Have all the ideas for your next days or weeks notes right at your fingertips by storing them on your desktop. Core of the notes-application consists of the function “Open Note” which will open the central panel with all your notes stored in it. The panel offers all the options you can imagine for a note. You can format the text background, the font as well as the font color. You can even add pictures to your notes. The Note panel is basically the core of the application. The User Interface itself is very well done. The Notes do look like Windows Toolbars, but you don’t need to click on them to open them. You can click and drag them to your desktop. The import function is very easy to use. All you have to do is to click the import function on the Notes Tab. You can choose from many different file types to import: Text, PowerPoint, Word, RTF, MSDAV, as well as CSV. You can also import a file by clicking on a button which opens a dialog where you can choose from the available file types. Notes are stored in a folder on your desktop. On start-up, they are sorted in the folder of the last open note. You can also copy notes from the desktop into the folder where they will be stored. You can organize your notes in sections (“New Folders”), which makes them easily searchable. When you click the create button, you can choose from the predefined layouts or create a new one. You can click and drag the notes to place them in the desired position. Notes can be exported to a New File, Opened File, Excel, PowerPoint, CSV and RTF formats. Languages: German, English, Italian and Russian. FreeNote Controls: Display Options (Appearance, General): Display Format Font Font Color Background Color Background Image Note: All settings that can be set in Notepad, can be set here. Size of text, font size, margin, lines, etc. Settings for text format (bold, underline, etc.) Custom Colors (optional) Custom Colors (each has its own color notation) Note: You can choose a color from the

What's New in the?

FreeNote is a note taking tool with custom look and feel. It is an easy-to-use, light weight, and popular

note taking app for Windows XP/Vista. FreeNote does not build on top of window manager, user interface, and graphics library, so it can run on all versions of Windows XP/Vista/7/8/10. Key features of FreeNote: Clipboard utility: With clipboard you can create a note (new note or paste text) directly from your application, make a note of something while you are working in your application or while browsing on the web, or copy text to a note. Note features: Separate note colors, fonts and positions; Non - full text notes allows to leave out some text from a note; Note in file (single note can be exported to TXT/HTML/RTF/DOCX/XLS/PPT file), with or without images; Notes Export to TXT, HTML, RTF, DOCX, XLS and PPT. Merged note: Allows to combine notes together. Different note colors, fonts and positions; Can be separated into 2 or 3 notes; Can be separated into top or bottom notes; Easy-to-use note details window (note properties window); Drag and drop notes from Explorer or list to right click dock menu; Tray icon; Trash can; Hide; Location; Note type (regular, sticky, separator, separator with count); Note count; Note text type (Regular, Sticky, Sticky with count, Separator, Separator with count); Separator text type (separator, separator with count); Note priority, addition and deletion; Note names (a note can have more than one name); Notes email (can be sent by e-mail, can be unsubscribed); Note XGOTO (DirectX Group Object) support; Notes Window; Notes resize (tired to resize, can be full-sized); Notes size auto-adjustment (if needed); Notes location option (left or right); Notes Arrange option (left or right); Font options, previews and font schemes; Built-in spell checker; Import note from PDF and DOC; Image support. System Requirements: Windows XP, Vista, 7, 8, and 10;

System Requirements:

The system requirements for the game are: Windows OS: XP/Vista/7/8 Mac OS X: 10.5 or later Linux OS: Ubuntu 12.04 or later To play the game on Mac OS X, you need to have 10.5 or later installed. To run the game you need to have at least 2GB of RAM and 2GB of free hard drive space. Please note that the Linux version might have less graphic effects when played on a low-end graphic card. Storage Requirements:
