Inside FIFA 22 – an RPG-style storyline, improved cover-based action and improved MyClub mode deliver a FIFA experience like never before. “We’ve spent a long time listening to fans around the world and have heard some incredibly passionate feedback. That passion has driven our team and influenced how we’ve designed FIFA 22,” said David Rutter, Vice President of Marketing at Electronic Arts. “Fans can expect a new way to play on all fronts - from the experience they receive, to the emotional connection they’ll feel from their players. And with ‘HyperMotion Technology,’ we’re delivering the first game in the series with a level of realism never before possible.” In “HyperMotion Technology,” each player’s movement is based on all 22 players’ movements. This video illustrates the “HyperMotion Technology” concept. “FIFA for 360 is a living, breathing, footballing organism”, said Creative Director David Rutter. “Everything in the game is constructed with an eye for detail and a true respect for the sport, its clubs, the competition and the amazing athletes who perform in it.” “With the development team in Cologne, developing FIFA for 360 was a truly collaborative effort. We asked ourselves how we could continue to push the boundaries of what’s possible in video games and make this the best football sim available on console,” said Thomas Knellwolf, Director of Global Publishing at Electronic Arts. “We had to do the impossible; we had to create a football game with an authentic feel that is true to the sport, its clubs and players. ‘HyperMotion Technology’ was key to achieving this. We are as excited as our fans to be creating ‘FIFA 22’, the first football sim for Xbox One.” Additional Note: Live Events feature is currently unavailable. As with the FIFA franchise, every FIFA game will be fully playable on Xbox One using the One Remote. The Social features in the Home menu will be accessible via the One Remote. Xbox One customers will be able to sign in to Xbox Live to play online, including accessing the Game DVR feature, when they launch FIFA 22. The ability to sign in for online play will continue to be available at a later date. FIFA

Fifa 22 Features Key:

- Take on legendary teams and memorable opponents in the brand new career mode, which allows you to live out your dreams as both a manager and a player.
- Create the newest club in the FIFA Ultimate Team with new kits and styles.
- In-game player features like ‘Race for the Ball’ and ‘Create a Teammate’ make FIFA Ultimate Team more accessible and fun for casual gamers.
- Game play is made more authentic with new ‘HitBox 2.0’, a targeting system that makes collisions between players and their players completely realistic. Combined with the new Dynamic Player Interactions, player actions react dynamically to your teammates on the pitch, adding another layer of control and complexity.
- FIFA FutbAlliO allows players to create their unique Pro Clubs, choose the Cascadia or Confederation, and pick five regional team colours to represent their club.
- NEW Challenge Tournaments give you the chance to test your skills and earn more FIFA Coins and XP; and you can now earn FIFA Coins from FIFA Superstars. They also offer exclusive rewards, as well as a chance to earn FIFA points.
- Changes have been made to the Skill Games, including new team-based challenges that give you more chances to earn pro points, and an additional opportunity for each set of skills to earn additional FIFA coins.
- ‘Player DNA’ could be enhanced in career mode by receiving crowd support, or that extra edge during a shootout. You can also now FIFA coins increase the accuracy of penalty shots against your opponents, force players to make more checks on your players, and get alerted when an opposing defender is about to foul you.
- UI/UX improvements across Franchise Manager, the Online Seasons, the dynamic commentary, and gameplay.
- Speed up your gameplay with new Player Traits.
- FIFA 22 beta players will be able to earn a coupon code that will double their initial purchase, before selling on to benefit their Balance Sheet. In addition, there will be a special beta discount for all players that are new to the series.

The ultimate football (soccer) video game experience. FIFA evolved into the biggest and most popular series in sports gaming. Now in FIFA you'll get the best gameplay on the market, from dribbling to passing, shooting to scoring, all tied together with over 80 leagues, clubs and competitions from around the world. FIFA is one of the most realistic and authentic sports games on the market, no matter what mode you're in. What's new? 4 Player Co-op FIFA allows you to play as your favorite team with friends or family, and this year you can play the game with four players at the same time. Play with your team mates online using the new co-op system. Co-op mode allows you to play the game with up to 4 others over Xbox LIVE, PlayStation Network and PC, whether you are playing online against friends or the computer. Play as your favorite club and compete in 40+ leagues, clubs, and competitions from around the world with your friends. New matchday experience The new matchday experience allows for quicker transitions between all your activities, improved control, and choice of which activity you are performing. No longer do you have to sit through long cut scenes to perform a specific activity. Now it’s just a matter of selecting the activity using quick-match. What's new in gameplay? Jump The jump has evolved to become even more central to the game, allowing for more fluid gameplay and your teammates better access to the ball. You can now jump directly on top of your teammate, a height-neutral strategy to increase decision-making and overall fluidity in the game. It’s the goal of every player to score, so you’ll use the Z-Axis for vertical aim or direct your shots with the R2 button. Crouch Crouching is key to playing the game, and now you’ll do even more things while you crouch. You can now sprint while you crouch, quicken the speed of your run to increase your speed, and use the sprint to change directions on the fly. The improved sprint animations make crouching even more intuitive. Improved passing Passing is perhaps the most important aspect of the game and, for many, that’s where the game starts and stops. We've made significant improvements in making bc9d6d6daa
