Download MYOB Accounting Plus V18 Ed Software - Free Download Myob myob-accounting-plus-v16-ed.software.informer.com/Myob Accounting Plus .Q: How to find the width of the UIView on subview? I have a view that consist 2 UIView. let topView = self.topView let centerView =

self.centerView TopView consist of button and centerView consist of UILabel. I want to know the width of the centerView after it is add subview to topView.

```
topView =
UIView(frame: CGRect(x: 466, y: 466, width:
314, height: 71))
centerView = UIView()
centerView.frame = CGRect(x: 466, y: 466,
width: 314, height: 71)
centerView.backgroundColor = UIColor.red
topView.addSubview(centerView)
```

A: You have to set the frame of centerView as well. To calculate the width of the subview, you can do something like:

```
topView.frame.size.width -
self.view.frame.size.width -
centerView.frame.size.width
```

EDIT: To get a bit more fancy with frames, you can also use constraints like so:

```
let constraints = NSLayoutConstraint.constraints(withVisualFormat:
"H:[constraint 648931e174
```
